

Working With Us P

Working With Us

Whether you are an employee, a client, a supply partner or a third party, working with RockTron is a very different experience. The RockTron Group is determined to deliver more than simply best practice. We aim to provide a refreshingly different way of doing business – from both technical and commercial perspectives.

This is what we call The RockTron Way

We –

- Believe everyone should be treated equitably, with courtesy and respect.
- Want to engage all in the spirit of entrepreneurial innovation.
- Want to work with and help innovators and their inventions.
- Work collaboratively to develop innovative technologies that will make the most of the new manufactured materials we have been able to extract from fly ash waste.
- Aim to share our vision of creating a worldwide commercial and environmentally friendly reprocessed minerals industry.
- Help train our teams to develop world-class skills for practical commercial use while delivering significant environmental benefits.
- Want to work with the very best people in their fields of science, technology and engineering and will continue to challenge conventional thinking on materials and mineral sciences.
- Work with integrity, trust and pride in all our activities.

Finally, we want to help a multitude of different industries manufacture products that will benefit people for years to come while reducing mankind’s impact on our environment.
